## Graphic Whizard Vivid Coater XDC530 Micro

MAFSXDC530MICRO

The VividCoater XDC-Micro is a low maintenance, ultra-violet cured coating system that produces a high quality finish to the printed sheet. By producing richer and more vibrant colours on digitally or offset printed pieces the VividCoater XDC-Micro offers the on-demand print market the opportunity to have more effective and expressive printed products at a very low cost per page.

### Easy Operation

The machine is easy to operate and allows for variable coating thickness control and variable speed control. Features such as easy set handles, standard IR and wiper blade, and vacuum hold down ensure that this machine is user friendly, and quick to set up.
