## PAL-14 Picks-A-Lift

MASWPAL14

With the PAL-14 Picks-A-Lift you can optimize the amount of paper being selected for punching. Just adjust the dial, press the button and the machine automatically moves to the level of the paper pile and lifts the corner of the right amount of paper meaning no more jams or inefficient punches. The PAL-14 can be used in a stand-alone configuration or as a module mounted to any Rhin-O-Tuff punch. The system offers flexibility enough to handle index tabs, clear covers, and oversized covers.

### Increased Punching Capacity

The action packed automatic paper lifter can work with various paper sizes, from 8.5" x 5.5" and up to 8.5" x 14". With flexible paper lift thickness, you can increase punching capacity by 30%, improving productivity and speeding up the process of work flow.
