IntoPrint HCC Envelope Conveyor

MISP1360-HC-CONV

The HCC offers opportunities to large print houses, design firms, specialty printing, and in house print shops. Unlocking new markets and allowing end users to bring print processing back in house.

The HCC delivers high levels of production and reliability, while giving the user flexibility and improved handling of a wide range of media sizes and applications.

End User Control

Ability to control speed on the feeder decreases setup times, while also giving you complete control over various media and the conveying process.

High Capacity Envelope Conveyor

Features

Creating a fresh redesign allows the addition of quality features for end users such as reduced downtimes and easier maintenance. Manufactured with quality materials where it counts for reliable useage.

- Speed controls on both the feeder and conveyor reduce setup times, and give the end user control over the feeding and conveying process.
- Improved separator and adjustable wedge assembly securely control the media exiting the hopper infeed stack.
- The HCF's newly designed register board hold down ensures a wider gamut of applications and precision control over media from feeder hopper to the printer feed wheels.
- Industry first quick detachment feed belt unit allows end users to easily access, clean, and maintain the feed belts at their convenience.

SPECS

Feed Speed (Variable)	Up to 250/min COM 10 – Print Engine Dependant
Feed Width	2.68" – 13"
Feed Length	3.5" – 18"
Operation Panel	Main Power and 7 Position Speed Control
Casters	4
Feeder Life	4,000,000 Pages or 6 Years
Maximum Duty Cycle	100,000 Pages Monthly
Operating Temperature	50° – 90 °F
Operating Humidity	20 – 80%
Power Consumption	110V – 3.2 Amps
Dimension (L x W x H)	41" x 13.5" x 27"
Weight	80 lbs
